

Conference about Aromatic & Medicinal Plants and their Products.

“The richness of Greek biodiversity as a factor of development.”

Timetable

Friday, 19th October 2018

Section 1: The uses of aromatic - medicinal plants and their products in cosmetology.

17:00 - 17:15

"The exploitation of Greek Biodiversity for the production of high added value raw materials for cosmetics."

Gardikis Konstantinos MSc, PhD, Director of Scientific Affairs APIVITA.

17:20 -18:35

"Essential oils by Greek high added value plants."

Dr. Lazari Diamanto, Dep. Professor, School of Pharmacy, Aristotle University of Thessaloniki, Department of Pharmacology & Pharmacognosy.

18:40 - 18:55

"Analyses of plant products: the key for their effectiveness and the consumer's safety."

Dr. Karioti Anastasia Assistant Professor, School of Pharmacy, Aristotle University of Thessaloniki, Department of Pharmacology & Pharmacognosy.

19:00 – 19:15

"Aromatic-medicinal plants. An opportunity to combine business, cosmetology and the quality of our health with the wisdom of nature."

Mentes Dionisios, Pharmacist, Aromatherapist.

19:20 – 19:35

"Exploitation and proper use of aromatic & medicinal plants in phytotherapeutic products, nutritional supplements and cosmetics. Regulatory provisions."

Dr. Skaltsa Eleni, Professor, School of Pharmacy in Athens, Department of Pharmacology & Pharmacognosy.

Discussion - Questions

Saturday, 20th October 2018

Section 2: Alternative proposals for the cultivation of aromatic and medicinal plants in Greek agriculture.

9:00 - 9:15

"Richness and uniqueness of Greek flora: protection - conservation and prospects of sustainable management."

Dr. Krigas Nikolaos, Biologist Researcher ELGO DIMITRA, Institute of Genetic Improvement and Plant Genetic Resources.

9:20 - 9:35

"The cultivation of Aromatic and Medicinal Plants in Greece, today. Trends and Prospects."

Dr. Dordas Christos, Professor of Aromatic & Medicinal Plants, Head of School of Agriculture, Aristotle University of Thessaloniki.

9:40 - 9:55

"Good Agricultural Practices and the selection of appropriate propagating material and quality factors of cultivated Aromatic and Medicinal Plants".

Dr. Chatzopoulou Pashalina, Regular Researcher ELGO DIMITRA, Institute of Genetic Improvement and Plant Genetic Resources.

10:00 - 10:15

"Fungal diseases of aromatic – medicinal plants and ways of dealing with them".

Dr. Lagopodi Anastasia, Professor, School of Agriculture, Aristotle University of Thessaloniki.

10:20 - 10:35

"Insect insults and their treatment in the crops of Aromatic-Medicinal Plants."

Dr. Kovaivos Dimitrios, Professor of Entomology, Dean of School of Agriculture, Forestry & Natural Environment, Aristotle University of Thessaloniki.

Discussion – Questions

11:00 – 12:00 Break

Section 3: Modern processing technologies of aromatic and medicinal plants for the production of specialized products.

12:00 - 12:15

"Herbs-Collaborations-Extractions-Research."

Stavropoulos Georgios, Agronomist RnD Korres Natural Products Company.

12:20 - 12:35

"Treatment - processing of Aromatic Medicinal Plants for the production of dry substances, extracts and essential oils".

Dr. Katsiotis Stavros, Former Director of the Department of Pharmaceutical Technology, School of Pharmacy Aristotle University of Thessaloniki.

12:40 - 12:55

"Cultivations of aromatic and medicinal plants for specialized industrial uses. Market trends and the international situation."

Dr. Dourtoglou Vasilios, Member of the VIORYL SA Board.

13:00 - 13:15

"The cultivation of aromatic-medicinal plants for the production of goodwill products."

Dr. Vogiatzi Eleni, Professor, Technological institute of Larisa, Head of the Department of Agricultural Technologists.

Discussion – Questions

Section 4: Synergies and innovative applications & uses of aromatic and medicinal plants and their products.

17:30 – 17:45

"The use of aromatic-medicinal plants, in the production of innovative feedstuff and innovative products of high added value."

Dr. Arsenos Georgios, Professor, School of Veterinary Medicine, Aristotle University of Thessaloniki.

17:50 – 18:05

"Innovative applications of aromatic-medicinal plants and their products, in the production of bio-functional products."

Tzimikas Stergios, Doctor, owner of DIOSKURIDES Company

18:10 – 18:25

"Analysis and control of biological activities of Aromatic and Medicinal plants."

Dr. Lekka Marilena, Professor of Biochemistry, School of Chemistry, University of Ioannina, Scientific Responsible of the Unit.

18:30 - 18:45

"Aromatic plants and microbes: "relations of attraction and aversion."

Dr. Vokou Despoina, Professor, Chairman of the School of Biology Aristotle University of Thessaloniki..

18:50 – 19:05

"Properties of aromatic and pharmaceutical plants and innovative uses "

Dr. Vantarakis Apostolos, Professor, School of Medicine, University of Patra.

19:10 – 19:25

«Presentation of the Postgraduate studies program "Environment and Agri-Food"»

Dr. Triantafyllos Albanis, Professor of Chemistry, University of Ioannina, Rector of University of Ioannina

Discussion – Questions

Sunday, 21st October 2018

Section 5: Preparations of medicinal and aromatic plants on the market. Funding programmes for investments and promotion of aromatic and medicinal plants.

11:00 – 11:15

"The Pharmacy of Earth."

Lampretsa Elli, Pharmacist in Kozani, Vice President of Pharmacists' Association of the Prefecture of Kozani.

11:20 – 11:35

"Exploitation of plant biodiversity. The road from the plant to the market."

Dr. Haroutounian Serko, Professor, Vice Rector of the Agricultural University of Athens.

11:40 – 11:55

"Uses and demand of Greek aromatic and medicinal plants in the Asian market."

Canjune, Director of ANIUS International Company, TAIWAN.

12:00 – 12:15

"Programmes and financial tools for productive investments and promotion of aromatic - medicinal plants in market."

Gerehte Zoe, Responsible for LEADER Programme, ANKO SA Company.

Discussion – Questions
